

BEING A MAN OF THE FLOOD, PART 3

Scriptures from the Life of Noah by Pastor Justin Schefcik

Other than Noah and the 7 members of his family, everyone else drowned in the flood. It's very serious setting in which we find ourselves, but the overbearing idea of a coming judgment is nothing strange to us. We should have a similar mindset knowing that everyone who has not placed their faith in Christ will face a judgment of God's wrath as well, along with spending eternity in the lake of fire, the eternal hell. In light of all these incredibly serious truths, we've been examining Noah's life and relationship with God and learning about how we can be men and women of the flood as well – how in a corrupt world, we too should live in light of a coming judgment.
